Straight A\* pupil Katey Parker in former school praise (Eureka Primary School)

A teenager has been praised by her former primary school after scoring straight A\* grades in her recent GCSEs. Katey Parker was a 'model pupil' at Eureka Primary School, in Midway, and has excelled herself at Granville Sports College.

She was a buddy reader with the younger children and very dedicated librarian. She was in charge of writing the reports for the website at Eureka as part of children-led learning.

Katey loved to help with fund-raising at school – summer fairs, raffles, and sponsored events. After leaving for Granville, Katey and a friend from Granville, also ran a Spanish club after school to a group of Eureka pupils - it was attended by about eight children.

She is now celebrating her amazing results with A\* grades in English language, maths, biology, physics, chemistry, geography, history, Spanish, religious studies, and French, an A\* in: English literature taken in 2015, and an A in human health and physiology taken in 2013.

She will now be studying her A Levels at Ashby School, where she will be taking English language, English literature, history and biology. From there Katey would like to go on to university to study English or law. Her aspirations are for a career in journalism, public relations or law.

Her parents, Darryl and Michelle Parker said: "She has worked so hard for these grades and with the support of ourselves, Eureka and Granville - her future looks very bright."

A spokesman for Eureka said: "I know that everyone that has had the pleasure to teach Katey, her peers and family all know how incredibly dedicated she is – giving her everything she has deserved."
